I was a man of frequent discharge of Madhi (pre-seminal fluid) and I was too shy to ask the Prophet (may Allah's peace and blessings be upon him) about it given his daughter's status. So, I asked Al-Miqdād ibn al-Aswad to ask him and he did. Thereupon, the Prophet (may Allah's peace and blessings be upon him) said: 'Let him wash his penis and perform ablution

‘Ali (may Allah be pleased with him) reported: "I was a man of frequent discharge of Madhi (pre-seminal fluid) and I was too shy to ask the Prophet (may Allah's peace and blessings be upon him) about it given his daughter's status. So, I asked Al-Miqdād ibn al-Aswad to ask him and he did. Thereupon, the Prophet (may Allah's peace and blessings be upon him) said: 'Let him wash his penis and perform ablution.'" A narration of Al-Bukhāri reads: Thereupon, he (may Allah's peace and blessings be upon him) said: "Perform ablution and wash your penis."

[Authentic] [Agreed upon]

‘Ali ibn Abi Tālib (may Allah be pleased with him) stated that he would frequently experience the discharge of Madhi, which is a thin and sticky whitish fluid that seeps out of the penis upon sexual arousal or before sexual intercourse. He did not know what he should do about it and was too shy to ask the Prophet (may Allah's peace and blessings be upon him) because he was the husband of Fātimah, daughter of the Prophet (may Allah's peace and blessings be upon him). So, he asked Al-Miqdād ibn al-Aswad to ask the Prophet (may Allah's peace and blessings be upon him) about it. The Prophet (may Allah's peace and blessings be upon him) replied: He should wash his penis, then, perform ablution.
