Fever is from the searing heat of Hell, so cool it off with water

‘Ā'ishah (may Allah be pleased with her) reported the Prophet (may Allah's peace and blessings be upon him) said: "Fever is from the searing heat of Hell, so cool it off with water."

[Authentic hadith] [Narrated by Bukhari & Muslim]

The Prophet (may Allah's peace and blessings be upon him) informed us that fever is from the intense heat of Hellfire. So, the heat that the sick person experiences is from it. Therefore, he urged us to overcome such heat by water.
